## What is a home warranty?

A home warranty is a renewable service contract offering protection for a home's major systems and appliances. First American offers protection to home buyers, sellers, and current homeowners.

A home warranty can protect home sellers from costs and delays during the listing period as well as protect home buyers from costly breakdowns after closing.

## Why choose First American?

First American is a leading provider of home warranties with the experience and strength of an industry leader. For over 30 years, First American has provided quality protection for homeowners across the nation, through more than 7.5 million home warranties.

An independent pre-screened local service technician will call and arrange a convenient time to come to your home. The technician will diagnose the problem and begin the repair or replacement process.

**There is no limit to the  
number of service calls you  
can make.**

When your covered systems and appliances fail – if we can't repair them, we will replace them.\* Many of our customers place multiple calls each year and save hundreds to thousands of dollars in repair and replacement bills. Last year, nearly two-thirds of our customers filed at least one claim – and many filed more than one. As a result we paid out over \$143 million\*\* for these repairs and replacements.

\*In some instances, Homeowner and First American may agree to payment of cash in lieu of repair or replacement. Payment will be made based on First American's negotiated rates with its suppliers, which may be less than retail. Please review the sample contract for specific coverage, terms and limitations.

\*\*Paid invoices net of service fees in 2015, prior to deductions and/or rebates.

## What are the benefits?

With a First American home warranty, when a covered system or appliance fails, if we can't repair it, we'll replace it.\* We have a network of independent pre-screened service providers and technicians and we are committed to providing you outstanding service and value.

## Do I need a home warranty?

Home warranty coverage is the best way to protect your budget against expensive home system and appliance failures. A home warranty can also take the stress and hassle out of repairing or replacing home systems and appliances when they break down.

## How can a home warranty protect my budget?

The repair and replacement cost graphic illustrates the impact home system and appliance breakdowns can have on your budget without the protection of a First American home warranty.

## What's covered?

See page 4 for a sample contract of our product designed for home buyers and sellers, showing coverage and options available. It is important to understand what is and isn't covered in your specific plan, as well as coverage limitations.

## RESOLUTION OF DISPUTES

**This provision constitutes an agreement to arbitrate disputes on an individual basis. Any party may bring an individual action in small claims court instead of pursuing arbitration.**

All disputes and claims arising out of or relating to the Contract must be resolved by binding arbitration. This agreement to arbitrate includes, but is not limited to, all disputes and claims between Company and the Homeowner, Company and the Seller, and claims that arose prior to purchase of the Contract. This agreement to arbitrate applies to Company, Homeowner and Seller, and their respective parent and subsidiary companies, affiliates, agents, employees, predecessors and successors in interest, assigns, heirs, spouses, and children. **As noted above, a party may elect to bring an individual action in small claims court instead of arbitration, so long as the dispute falls within the jurisdictional requirements of small claims court.**

**Any arbitration must take place on an individual basis, and Company, the Homeowner and the Seller agree that they are waiving any right to a jury trial and to bring or participate in a class, representative, or private attorney general action, and further agree that the arbitrator lacks the power to consider claims for injunctive or declaratory relief, or to grant relief affecting anyone other than the individual claimant.**

The arbitration is governed by the Commercial Arbitration Rules and the Supplementary Procedures for Consumer Related Disputes (the "AAA Rules") of the American Arbitration Association ("AAA"), as modified by this Agreement, and will be administered by the AAA. Company will pay all AAA filing, administration and arbitrator fees for any arbitration it initiates and for any arbitration initiated by another party for which the value of the claims is \$75,000 or less, unless an arbitrator determines that the claims have been brought in bad faith or for an improper purpose, in which case the payment of AAA fees will be governed by the AAA Rules.

The arbitration will take place in the same county in which the property covered by the Home Warranty Contract is located. The Federal Arbitration Act will govern the interpretation, applicability and enforcement of this arbitration agreement. This arbitration agreement will survive the termination of this Warranty Contract.

## Top 10 home warranty FAQs

### 1. What is a home warranty?

A home warranty is typically a one-year service contract designed to protect the family budget from unexpected, costly repairs on home systems and appliances.

### 2. What is covered in the plans?

There are several plans and options to choose from to best suit the home's specific requirements. Basic plans typically include coverage for: kitchen appliances, water heaters, plumbing, plumbing stoppages, electrical, heating system, ductwork, instant hot water dispenser, whirlpool bath motor and pump assemblies and more. Optional covered items can range from pool/spa equipment, washer/dryer, kitchen refrigerator, air conditioning, well pump and more. Plans and optional covered items vary in geographic areas and are detailed in First American contracts.

### 3. What is a service call fee?

This is the fee paid to the service technician at the time of the appointment.

### 4. Is it safe to assume there are no costs other than the service fee when a covered item breaks down?

Unfortunately, no. A home warranty covers only items listed as covered and excludes all others. For instance, costs could arise for the homeowner from modifications or code upgrades when a system or appliance is replaced.

### 5. Who do I contact when covered items fail?

Anytime a covered item fails, contact First American at 800.992.3400 or online at fahw.com to request service. It is important that First American is contacted first, we do not reimburse for services performed without approval.

### 6. How does the claim process work?

Once First American receives the request and coverage is confirmed, a local service technician will call the homeowner to arrange a mutually convenient day and time to go to the home and diagnose the failure.

### 7. How quickly are claims handled?

Once coverage is confirmed, the contractor typically receives the claim dispatch within four hours during regular business hours. Normally, the services will be initiated by the technician within 48 hours after the request is made. Simple repairs are usually made on the first visit, however, if items must be ordered an additional visit(s) may be needed to complete the repair or replacement.

### 8. What is an emergency repair and how are these claims handled?

First American considers it an emergency when the failure of a covered item renders the home uninhabitable; in these circumstances, First American will make all reasonable efforts to expedite emergency service.

### 9. How is it determined if a failure is covered or not?

In general, coverage is limited to failures caused by normal wear and tear and limited to the terms of the contract. For example, cosmetic defects are not covered.

### 10. How are known pre-existing conditions determined versus unknown pre-existing conditions?

Unknown conditions are covered if, at the time coverage begins, the defect or malfunction is not known or could not have been reasonably observed by looking at or operating the system or appliance.
